industrial installations in Kazan:

a. Overlay of [redacted] Kazan (N 55-45. E 49-08) (see page 4 )

- (1) Zavod Serp i Molot [redacted] this complex [redacted] 25X1  
 was enclosed with a two-meter-high fence. The plant was not  
 visibly guarded. [redacted] 25X1

- (2) Zavod 543 - Area enclosed with a brick wall, 2 meters high.  
 [redacted] in 1948 the plant produced artillery shell  
 casings (for two to three months only). [redacted] 25X1  
 [redacted] a pile of shell 25X1

casings stored in the open. The pile was approximately  
 seven meters high. Shell casings were copper, approximately  
 15 cm. long and approximately three centimeters in diameter.  
 [redacted] the shell casings were being loaded onto  
 trucks; shovels were used. [redacted] 25X1

[redacted] the plant manufactured  
 steam radiators for central heating. [redacted] 25X1

[redacted] The sign above the entrance read Kazanskiy  
 Mekhanicheskii Zavod, but the population referred to the 25X1

plant as Zavod 543. [redacted]

[redacted]

- (3) Ball Bearing Repair Plant - Area was enclosed with a two-meter-high brick wall. [redacted] several two and three-storied stone buildings inside the enclosure. [redacted] this plant serviced all surrounding kolkhozy and MTS stations (locations unknown). [redacted] 25X1
- (4) Prison - Formerly a church, the cross of which was taken down a long time ago. The height of the structure was estimated to be that of a five-story building. The immediate area was enclosed with a two-meter-high wooden fence topped with barbed wire. There were watch towers in the corners manned by MVD personnel. Search lights were installed on towers illuminating the prison area at night. 25X1
- (5) Combine Plant - A large stone building was adjacent to the street. New combines (details unknown) were produced here. [redacted] airplane parts were made in this plant during the war (details unknown). Work was done in three shifts. [redacted] There was supposed to be a section of this plant located somewhere in town. [redacted] 25X1
- (6) Prison - Enclosed with wooden fence interspaced with towers. [redacted] 25X1
- (7) Prison - Completely isolated area. No details.
- (8) Unidentified Factory - Area enclosed with a wooden fence. [redacted] End product unknown. 25X1

b. Overlay of TCM 0165-9999-3-25M. Kazan (N 55-45 E 49-08) (see page 5 ) 25X1

[redacted]

- (1) Kremlin - A walled-in area with numerous stone buildings of old construction. [redacted] Entrance was on the south side. No passes were required to enter. No guards were seen in the area. [redacted] included in the unidentified governmental institutions of the complex was the Supreme Council of the Tatar ASSR. [redacted] 25X1
- (2) New Construction Site - Work began in 1949 when the old building was taken down. [redacted] in 1950, only the foundation had been completed. [redacted] 25X1
- (3) New Construction Site - Observed in February 1951. A steel skeleton frame had been erected at that time. The height of the frame indicated that the building would exceed the height of a six-story building. Length was estimated at approximately 100 m. [redacted] 25X1
- [redacted]

c. Overlay of [ ] Kazan (N 55-45, E 49-08), (see page 6 )

25X1

(1) Ammunition Plant - Called Zavod 40. The area was enclosed by four rows of barbed wire strung on wooden poles (1.5m between rows). A so-called restricted zone (150m wide) extended along the outside of the fence and was marked with coils of barbed wire. Watch towers, spaced every 300m, were manned by unidentified military personnel. Search lights were installed on towers illuminating the fences at night.

25X1

25X1

[ ] the ammunition plant area extended as far west as indicated on sketch.

25X1

[ ] The part of the ammunition plant [ ] was located directly north of Yudino. In that section large artillery shell casings were made (approximate size [ ]

25X1

25X1

[ ] one meter long). [ ]

[ ] explosive heads [ ]

[ ] were attached in a different section. [ ]

[ ] this plant was the second largest in the USSR. [ ]
